Part urban adventure, part urban trek, and totally green, The Real SF Tours take you where no other tours can go. You'll visit enchanted gardens, secret stairways, glorious rooftop views, and some of the city's coolest neighborhoods. You'll be avoiding large crowds of tourists while experiencing the real culture of San Francisco and learning about its rich and storied history. You'll traverse the city on Cable Cars, Light Rail, and City Buses. These vehicles are zero emissions or run on bio diesel, making this tour totally green.

The Muni system is GPS equipped so we use our smart phones to know exactly where and when the bus is coming and can adjust the pace accordingly.
